

§ 633.6

7 CFR Ch. VI (1-1-06 Edition)

to protect the wetland, and provides essential habitat for the nesting, breeding or feeding of migratory waterfowl.

(c) Where funds allocated to the State do not permit accepting all requests which are filed, the State Conservationist, in consultation with the State Technical Committee, may establish ranking criteria and limit the approval of requests for agreements in accordance with the ranking scheme. Any ranking scheme shall consider estimated costs of the agreement, costs of protection, availability of matching funds, significance of wetland functions and values, and estimated success of protection measures.

(d) The NRCS may place higher priority on certain geographic regions of the State where the protection of wetlands may better achieve NRCS State and regional goals and objectives.

(e) Notwithstanding any limitation of this part, the State Conservationist may enroll eligible lands at any time in order to encompass total wetland areas subject to multiple ownership or otherwise to achieve program objectives. Similarly, the State Conservationist may, at any time, exclude otherwise eligible lands if the participation of the adjacent landowners is essential to the successful protection of the wetlands and those adjacent landowners are unwilling to participate.

§ 633.6 Program participation requirements.

(a) *WBP Agreement.* An agreement shall be executed for each participating farm. The agreement shall be signed by the owner of the designated acreage and any other person who, as landlord, tenant, or share cropper, will share in the payment or has an interest in the designated acreage. There may be more than one agreement for a farm.

(b) *Agreement period.* The agreement period shall:

(1) Be for a term of 10 years;

(2) Become effective on January 1 of the year in which the agreement is approved except that the agreement shall become effective on January 1 of the next succeeding year in cases where, at the time the agreement is approved, the NRCS determines that the agreement signers will be unable to comply with the provisions of paragraph (c) of

this section in the year in which such agreement is approved.

(c) *Agreement terms and conditions.* The acreage designated under an agreement shall:

(1) Be maintained for the agreement period in a manner which will preserve, restore, or improve the wetland character of the land;

(2) Not be drained, burned, filled, or otherwise used in a manner which would destroy the wetland character of the acreage, except that the provisions of this paragraph shall not prohibit the carrying out of management practices which are specified in a conservation plan for the farm;

(3) Not be used as a dumping area for draining other wetlands, except where the State Conservationist determines that such use is consistent with the sound management of wetlands and is specified in the conservation plan;

(4) Not be used as a source of irrigation water;

(5) Not be used for the harvesting of a crop;

(6) Not be hayed except for during periods of severe drought and only under conditions prescribed by the State Conservationist in consultation with the Secretary of the Interior or his designee; and

(7) Not be grazed, except as may be specified in the conservation plan.

§ 633.7 Annual payments.

(a) Person on the farm having an interest in the designated acreage, including tenants and sharecroppers, shall be eligible for an annual payment in the manner agreed upon by them as representing their respective contributions to compliance with the agreement. The State Conservationist shall not approve an agreement if it is determined that the proposed division of payment is not fair and equitable.

(b) The annual per acre payment rates for wetlands and for adjacent land shall be determined for each county by the State Conservationist, based on recommendations of the State Technical Committee.

(c) Maximum payments. In order to ensure that limited program funds are expended to maximize program benefits, the State Conservationist, in consultation with the State Technical

Committee, may establish uniform maximum annual payment limits for agreements within a State or for geographic areas within a State.

(d) Preliminary estimates of annual payments. Upon request prior to filing an application for enrollment, a person may be apprised of the maximum annual payment rates.

(e) Adjustment of annual rates.

(1) The State Conservationist, in consultation with the State Technical Committee, shall reexamine the payment rates with respect to each agreement at the beginning of the fifth year of any ten-year initial or renewal period and before the renewal expires.

(2) An adjustment in the payment rates shall be made for any initial or renewal period taking into consideration the current land rental rates and crop values in the area. No adjustment shall be made in a payment rate which will result in a reduction of an annual payment rate from the rate which is specified in the initial or renewal agreement.

(3) The rate or rates of annual payments may be increased if the program participant permits access by the general public to the designated acreage for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

§ 633.8 Cost-share payments.

(a) In addition to annual payments, the NRCS may share the cost with program participants of protecting the wetland functions and values of the enrolled land as provided in the conservation plan. The NRCS may pay up to 75 percent of such costs.

(b) Cost-share payments may be made only upon a determination by the NRCS that an eligible practice or an identifiable unit of the practice has been established in compliance with appropriate standards and specifications. Identified practices may be implemented by the program participant or other designee.

(c) A program participant may seek additional cost-share assistance from other public or private organizations as long as the activities funded are in compliance with this part. In no event shall the program participant receive

an amount which exceeds 100 percent of the total actual cost of the practices.

§ 633.9 Conservation plan.

(a) The program participant, with assistance from NRCS and in consultation with the Conservation District, shall prepare a conservation plan for the acreage designated under an agreement.

(b) The conservation plan is the basis for the agreement and is incorporated therein. It includes a schedule of conservation treatment and management required to protect and to maintain the wetland and adjacent land as a functional wetland unit for the life of the agreement.

(c) Conservation treatment and management of the vegetation for wetland protection, wildlife habitat, or other authorized objectives are consistent with the program objectives and priorities.

§ 633.10 Modifications.

The NRCS may approve modifications to the agreement or associated conservation plan after consultation with the Conservation District. Any modification must meet WBP program objectives, and must be in compliance with this part.

§ 633.11 Transfer of interest in an agreement.

(a) If the ownership or operation of a farm changes in such a manner that the agreement no longer contains the signatures of the persons required by § 633.6(a) to sign the agreement, the agreement shall be modified to reflect the new interested persons and new divisions of payments.

(b) If such persons are not willing to become parties to the modified agreement or for any other reason a modified agreement is not executed, the agreement shall be terminated and all unearned payments shall be forfeited or refunded.

(c) The annual payment for the year in which the change of ownership or operation occurs shall not be considered to have been earned unless the designated acreage is continued in the program and there is compliance with the agreement for the full agreement year.
